# 1. Overview of Financial Results for the First Nine Months of the Fiscal Year Ending March 31, 2023

## (1) Overview of Consolidated Business Results

In the first nine months of the current fiscal year (from April 1, 2022 to December 31, 2022), the Group's sales trended strongly in general amid the recovery in medical demand which had declined in the previous fiscal year due to the COVID-19 pandemic, as well as due to the positive impact by yen depreciation.

Adjusted operating profit rose as higher revenue, hikes to selling prices, and stricter measures to control costs partially offset increases in manufacturing costs caused by inflation.

Financial results for the first nine months are as follows:

(Unit: Millions of yen)

	For the nine months ended December 31, 2021	For the nine months ended December 31, 2022	Growth (%)	Growth excluding impact of FX translations (%)
Revenue	523,482	617,993	18.1	5.6
Gross profit	278,841	318,347	14.2	3.2
Adjusted operating profit	107,157	109,607	2.3	(5.5)
Operating profit	94,455	93,514	(1.0)	(6.0)
Profit before tax	93,044	92,100	(1.0)	—
Profit for the period	71,696	70,180	(2.1)	—
Profit for the period attributable to owners of the parent	71,696	70,180	(2.1)	—

Revenue by geographic areas for the first nine months is as follows:

(Unit: Millions of yen)

Geographic areas	For the nine months ended December 31, 2021	For the nine months ended December 31, 2022	Growth (%)	Growth excluding impact of FX translations (%)
Japan	155,034	157,044	1.3	1.3
Europe	103,997	118,615	14.1	4.6
Americas	161,219	212,363	31.7	8.1
China	44,605	56,628	27.0	8.6
Asia and others	58,625	73,341	25.1	10.2
Overseas total	368,447	460,948	25.1	7.5
Total	523,482	617,993	18.1	5.6

## Revenue

Revenue totaled ¥618.0 billion, an increase of 18.1% versus the same period in the previous fiscal year.

In Japan, overall revenue increased by 1.3% year on year, amid strong revenue from Pharmaceutical Solutions division, which pursues alliance business with pharmaceutical companies, and Hospital Care Solutions division in the surgical field, despite a delayed recovery in medical demand due to the eighth wave of the COVID-19 pandemic.

Revenue overseas increased by 25.1% year on year owing to double digit growth across all companies centered on TIS (catheter) division because of the steady recovery in medical demand.

## Profit

Gross profit totaled ¥318.3 billion, an increase of 14.2% versus the same period in the previous fiscal year, because the effects of higher revenue and hikes to selling prices partially offset increases in manufacturing costs caused by inflation.

Adjusted operating profit was ¥109.6 billion, an increase of 2.3% versus the same period in the previous fiscal year. This was attributed to stricter measures to control costs which partially offset the increase in selling, general and administrative expenses resulting from yen weakness.

Operating profit, profit before tax, and profit for the period attributable to owners of the parent each declined due to such impacts as increased amortization expense for acquired intangible assets, an adjustment item, caused by yen weakness.

Adjusted operating profit is a non-IFRS performance indicator that we disclose. Adjusted operating profit factors out amortization expense for intangible assets obtained during acquisitions and one-off income and expenses from operating profit. In addition, adjusted operating profit is consistent with segment profit.

Adjusted operating profit is being used as an indicator for corporate management to grasp earnings performance in each business as a part of our goal to achieve sustainable growth in the mid- to long-term. We believe this is also effective data for individuals using our financial statements to assess the Terumo Group's earnings.

Revenue results of the reportable segments are as follows:

The reportable segment which was previously named “General Hospital Company” was changed to “Medical Care Solutions Company” from the previous fiscal year. This change in name does not affect the segment information. In accordance with this change, the name of the reportable segment for the nine months ended December 31, 2021 was also changed to “Medical Care Solutions Company”.

(Unit: Millions of yen)

Segment		For the nine months ended December 31, 2021	For the nine months ended December 31, 2022	Growth (%)	Growth excluding impact of FX translations (%)
Cardiac and Vascular Company	Revenue	294,403	358,907	21.9	6.2

	(Japan)	8,700	8,329	(4.3)	(4.3)
	(Overseas)	81,453	105,058	29.0	11.5

### Cardiac and Vascular Company

In Japan, overall revenue declined slightly year on year as the recovery in medical demand lagged due to the impacts of the eighth wave of COVID-19. Despite this, Vascular Graft division posted a substantial increase in revenue from the launch of new products. Overseas, revenue increased 25.2% year on year amid the recovery and growth of medical demand as well as strong sales across all divisions underpinned by the new products of Vascular Graft division. Global revenue increased 21.9% over the same period of the previous fiscal year to ¥358.9 billion.

### Medical Care Solutions Company

In Japan, revenue increased by 2.3% year on year due to the solid sales of Pharmaceutical Solutions division and adhesion barrier product in Hospital Care Solutions division, despite the lagging recovery in medical demand. Overseas, revenue was strong, up 13.8% year on year. Global revenue increased 4.9% over the same period of the previous fiscal year to ¥145.5 billion.

### Blood and Cell Technologies Company

In Japan, sales declined year on year, impacted by the lagging recovery in medical demand. Overseas, revenue increased substantially by 29.0% year on year, driven by the recovery in blood transfusion demand in Asia and other regions as well as strong demand for blood component collection systems in North America. Global revenue increased 25.8% over the same period of the previous fiscal year to ¥113.4 billion.

## **(2) Overview of Consolidated Statement of Financial Position**

Total assets stood at ¥1,543.5 billion, an increase of ¥69.8 billion. This was mainly owing to an increase in inventories of ¥38.5 billion due to the impacts of yen weakness in foreign exchange rates, as well as property, plant and equipment of ¥22.9 billion and goodwill and intangible assets of ¥21.7 billion due to the aforementioned foreign exchange rates impact and investment in manufacturing facility and new IT systems, which offset the decrease in cash and cash equivalents of ¥42.9 billion from acquisition of treasury share. Total liabilities came to ¥469.8 billion, an increase of ¥8.4 billion. This was mainly attributed to the increase in bonds and borrowings of ¥5.7 billion due to the aforementioned foreign exchange rates impact. Total equity was ¥1,073.7 billion, an increase of ¥61.4 billion. This mainly reflects an increase from posting profit for the period of ¥70.2 billion, while the booking of other comprehensive income associated with the aforementioned foreign exchange rates impact resulted in a ¥69.0 billion increase, which offset the decrease of ¥50.1 billion from the acquisition of treasury shares and the decrease of ¥27.9 billion from dividends from retained earnings.

## **(3) Forecasts, including the Consolidated Financial Results for the Fiscal Year Ending March 31, 2023**

At present, we must continue to monitor risks such as uncertainty about subsequent waves of COVID-19 infections and other impacts caused by the infections, such as a drop in demand, supply chain disruptions, rising manufacturing costs, and reduced operation levels at the plants, etc. Nevertheless, we plan to focus on development, launch, and expansion of highly value-added products and solutions that will boost the quality and efficiency of healthcare, along with further improvement to manufacturing costs, and effective use of selling, general and administrative expenses.

**(4) Notes Pertaining to Condensed Consolidated Financial Statements**

(i) Going concern assumption

Not applicable

(ii) Segment information

(1) General information on reportable segments

The reportable segments of the Group represent business units for which separate financial information is available, and are reviewed regularly at the Board of Directors meeting to make decisions about allocation of management resources and assess the performance of the business.

The Group applies an in-house company system classified by product groups. The headquarter of each in-house company plans their own comprehensive domestic and international strategies and conducts their own business activities.

The three segments are Cardiac and Vascular Company, Medical Care Solutions Company, and Blood and Cell Technologies Company.

The segment which was previously stated as “General Hospital Company” has been changed to “Medical Care Solutions Company” from the fiscal year ended March 31, 2022. This change in name does not affect the segment information. In accordance with this change, the name of the reportable segment for the nine months ended December 31, 2021 was also changed to “Medical Care Solutions Company”.

(2) Reportable segment information

Revenue and operating results of the reporting segments of the Group are described below.

For the nine months ended December 31, 2021
