1. Qualitative information on the quarterly financial results

The forward-looking matters stated herein are judgments made by HOSHIZAKI CORPORATION (the "Company") as of September 30, 2023.

(1)Operating results

During the nine months ended September 30, 2023, the Japanese economy continued to gradually recover based on the rebound from the impact of COVID-19. Despite factors such as inbound demand due to the weak yen providing a boost to the restaurant and service industries, there are concerns over the impact of rising prices, labor shortages and other negative factors.

Overseas, although consumption and employment trends held firm, in the IMF World Economic Outlook released in October, the economic growth rate for 2023 remained at +3.0%, unchanged from the previous forecast, as there were concerns regarding economic slowdown brought about by continuation of rising prices and prolonged monetary tightening, and also the impact of China's real estate crisis on global economy.

Amid such circumstances, supply constraints due to difficulties in procuring materials and parts that had occurred last year were overcome, and the Group focused on expanding sales in the restaurant market and on expanding sales and developing new customers in non-restaurant markets such as retail industry and food processing industry in Japan. Overseas, the Group focused on product supply to meet continued solid demand and worked to improve profitability. In addition, companies acquired by the Group last year contributed to our business performance.

As a result of the above, the Group reported operating results for the nine months ended September 30, 2023 with net sales of \(\frac{\pmathbf{2}}{2}82,154\) million (up 18.0% year-on-year). Operating profit was \(\frac{\pmathbf{3}}{3}5,577\) million (up 54.7% year-on-year). In addition, owing to the recording of foreign exchange gains of \(\frac{\pmathbf{5}}{5},139\) million from translation of foreign-currency-denominated assets to Japanese yen, ordinary profit was \(\frac{\pmathbf{4}}{4}3,380\) million (up 13.2% year-on-year) and profit attributable to owners of parent was \(\frac{\pmathbf{3}}{3}0,016\) million (up 14.3% year-on-year).

The operating results by segment are as follows:

a. Japan

In Japan, although the rise in material prices had some impact, the Group expanded sales focusing on its flagship products such as refrigerators, ice machines, and dishwashers for the restaurant market with which it deepens engagement and the non-restaurant markets in which it proactively aims to enter. The Group quickly responded to capital investment demand in the food service industry associated with economic recovery and also placed focus with respect to both products and services on addressing various challenges encountered by its customers and providing added value in a manner that contributes to creating a safe and secure food environment. As a result, the Group generated net sales of \$\frac{1}{2}160,448\$ million (up 9.6% year-on-year) and segment profit of \$\frac{1}{2}20,990\$ million (up 32.1% year-on-year).

b. Americas

In the Americas, we strove to expand sales of ice machines, dispensers, and other products, focusing on initiatives that include productivity enhancement in the manufacturing sector to address solid demand as well as customer development and relationship building. As a result, the Group generated net sales of \$73,146 million (up 23.9% year-on-year) and segment profit of \$7,538 million (up 43.5% year-on-year).

c. Europe / Asia

In Europe, we worked to expand sales of our flagship products such as ice machines and refrigerators, and companies we acquired last year contributed to our business performance. As for Asia, sales of refrigerators were high in India and other countries. As a result, the Group generated net sales of ¥54,827 million (up 37.6% year-on-year) and segment profit of ¥8,260 million (up 151.7% year-on-year).

(2) Financial position

Regarding the business combinations with Brema Group S.p.A. acquired on July 1, 2022, and with Beijing Royalkitchen Science and Technology Co., Ltd. acquired on December 22, 2022, provisional accounting treatments were applied to results as of December 31, 2022, but the provisional accounting treatment for each was finalized during the second quarter and third quarter of the current fiscal year, respectively. As such, post-

revision amounts resulting from finalization of provisional accounting treatment have been applied for comparison and analysis against the fiscal year ended December 31, 2022.

Total assets as of September 30, 2023 increased by ¥56,497 million from December 31, 2022 to ¥480,395 million.

Current assets increased by ¥43,033 million from December 31, 2022 to ¥371,273 million. The main factors were increases in cash and deposits, notes and accounts receivable - trade, and contract assets, and merchandise and finished goods.

Non-current assets increased by \(\pm\)13,464 million from December 31, 2022 to \(\pm\)109,122 million. The main factor was an increase in investments and other assets.

Total liabilities as of September 30, 2023 increased by ¥11,492 million from December 31, 2022 to ¥142,890 million.

Current liabilities increased by \(\pm\)10,837 million from December 31, 2022 to \(\pm\)113,824 million. The main factors were increases in provision for bonuses and income taxes payable.

Non-current liabilities increased by ¥654 million from December 31, 2022 to ¥29,066 million.

Total net assets as of September 30, 2023 increased by \(\frac{\pmathbf{45}}{304}\) million from December 31, 2022 to \(\frac{\pmathbf{337}}{337}\),505 million. The main factors were increases in retained earnings and foreign currency translation adjustment.

Business combination, etc.

Finalization of provisional accounting treatment pertaining to business combination

Regarding the business combination with Brema Group S.p.A., acquired on July 1, 2022, provisional accounting treatment was applied to results of the fiscal year ended December 31, 2022, but the provisional accounting treatment was finalized during the second quarter of the current fiscal year.

The comparative information presented in the consolidated financial statements as of September 30, 2023, reflect material revisions to amounts initially allocated to acquisition cost accompanying finalization of provisional accounting treatment.

Regarding the business combination with Beijing Royalkitchen Science and Technology Co., Ltd., acquired on December 22, 2022, provisional accounting treatment was applied to results of the fiscal year ended December 31, 2022, but the provisional accounting treatment was finalized during the third quarter of the current fiscal year.

The comparative information presented in the consolidated financial statements as of September 30, 2023, reflect material revisions to amounts initially allocated to acquisition cost accompanying finalization of provisional accounting treatment.

As a result, goodwill previously calculated as ¥1,438 million on a provisional basis has been lowered by ¥260 million to ¥1,178 million due to finalization of accounting treatment. The decrease in goodwill is attributable to increases in other under intangible assets of ¥601 million, other under non-current liabilities of ¥90 million, and non-controlling interests of ¥250 million. In addition, as of December 31, 2022, other under intangible assets increased by ¥601 million, other under non-current liabilities increased by ¥90 million, and non-controlling interests increased by ¥250 million, while goodwill decreased by ¥260 million.
