Note: The total number of treasury shares at the end of period includes those treasury shares held under the Board Benefit Trust (at the end of Q3 FY2023-24 73,100 shares) and the Employee Stock-ownership Program (ESOP) (at the end of Q3 FY2023-24 82,540 shares and at the end of the previous fiscal year 86,900 shares). Also, these treasury shares are excluded from the calculation of the average number of shares during the period (at the end of Q3 FY2023-24 117,528 shares and at the end of Q3 FY2022-23 88,771 shares).

These consolidated financial reports (Tanshin) are exempt from the audit procedures by certified public accountants or audit firms.

Cautionary Statement on the forecast of consolidated financial performance and other notes

(Cautions concerning forward-looking statements)

Performance forecasts presented herein are based on the information available to Chikaranomoto Holdings Co., Ltd. and its subsidiaries (the "Company") as of the date of this document. Accordingly, there remains the possibility that the actual performance results may differ from projections.

(Supplementary Explanation Material)

Supplementary Explanation Material are available via TDnet on the same day.

Qualitative Information regarding the current quarterly financial results: The following forward-looking statements are based on the information available to the Company at the end of the second quarter of the current consolidated financial period.

Summary of Operating Results:

As for the overall economic environment during the third quarter of the current consolidated financial period, there were upwards pressure on raw materials and energy prices caused by Russia-Ukraine situation, rising wages around the world due to shortage of working population, and unease about economic momentum due to potential fiscal tightening to battle the persistent inflationary trends, leading to an uncertain economic outlook.

In the restaurant industry where the Company operates, domestically, there are signs of gradual economic recovery thanks to legal downgrading of the status of Covid-19, leading to more active movement of people and recovery of inbound tourism due to lifting of entry requirements. On the other hand, hardships remain due to increased raw materials and energy costs, wage increases, continuously weakened Yen and general inflationary trends of prices of goods. Internationally, similar trends of increased prices of raw materials and energy due to geopolitical instabilities can be seen, as well as concerns over potential down trend of economies due to fiscal tightening to tame inflation.

Under such circumstances, the Company stays true to its principle of "Keep Changing to Remain Unchanged," domestically, participated in various events around the country to enhance its brand visibility, offered some collaboration products and limited time offerings, in order to increase the number of customer visits. Additionally, the Company increased its selling prices for the second time in two years, so as to alleviate effects of increasing raw materials costs and wages. It also significantly upgraded its signature products, the first time in 8 years for Shiromaru and Akamaru, and the first time in 3 years for Karaka, to continuously attracts customers new and existing. Finally, the Company has entered into a collaboration agreement with J-Will Corporation Co. Ltd., an investment fund management company, in order to accelerate the Company's growth through working together with other companies and regional revitalization in Japan.

Internationally, while the geopolitical instabilities led to a decreased pace of new store development, the Company introduced limited-time offers and enhanced side-dishes including desserts, overhauling its grand menu in some markets to continue to attract customers, while adjusting its selling prices to overcome increasing costs, introducing digital transformation measures, in order to improve its margins.

In the Merchandising segment, the Company continues to strengthen its B2B sales of IPPUDO-branded products in Japan while expanding its export sales of plant-based IPPUDO products abroad.

At the end of the third quarter, there were 287 stores including licensed stores (Japan 145, International 142, increase of 6 and 8 stores respectively, from the end of last fiscal year).

As such, the revenue for the first three quarters of the fiscal year was 23,363 million yen (an increase of 24.0% from the same period of the previous year), operating profit 2,431 million yen (increase of 55.7%), ordinary profit 2,516 million yen (increase of 56.3%), and the profit attributable to owners of parent of 1,757 million yen (increase of 46.3%).

Segment Results

(Domestic Store Operations)

Within this segment, the Company opened 10 IPPUDO stores and 1 Gogyo store, while closing 3 IPPUDO stores, 2 Ramen Express, resulting in a total of 145 stores at the end of the quarter (a net increase of 6 with 11 new stores this year). Thanks to the government downgrading the public health risk of Covid-19, there were more footfall in many markets and Company capitalized on the momentum by offering limited time products. The overall recovery of inbound tourism and price increases led to about 15% increase in average check compared to 2021. Margins continue to improve thanks to store optimization helped by digital transformation initiatives. As such, the revenue up to the third quarter totaled 10,329 million yen (an increase of 22.4% compared to the same period of the previous fiscal year), and operating profit resulted in 1,083 million yen (increase of 120.9%).

(International Store Operations)

There were 2 openings each in Singapore, France, China, Malaysia, Thailand and Taiwan, 1 in Indonesia, Vietnam and the Philippines, and store closures of 3 in China, 2 in Hong Kong, 1 in Malaysia and Vietnam, resulting in 142 stores at the end of the quarter (a net increase of 8 stores with 15 new stores during the year). As the store development plan is under careful review given the recent downturn of the global economy and geopolitical instabilities, at the end of the period the new store openings did not hit the target.

Up to the current quarter of the consolidated financial period (1 January to 30 September 2023), there were upwards pressure on raw materials and energy prices, as well as wages and logistics costs caused by inflationary economies, each area adjusted its selling prices and offerings, ensuring healthy margins. The Company also aimed to increase customer visits by introducing new menu items including desserts, while optimizing store operations with the help of digital transformation initiatives. As such, the revenue for the segment totaled 10,384 million yen (increase of 27.6%), and operating profit resulted in 1,262 million yen (increase of 32.7%).

(Merchandising segment)

In this segment domestically, the sales of Tonkotsu Ramen and Kiwami Tonkotsu at convenient stores, frozen Shiromaru and Akamaru at supermarkets, and IPPUDO Plant-Based Ramen (Pla-Ton) on international in-flight meals are performing well. In August 2023, the Company started selling Kaedama Ale, a craft beer made from upcycling waste incurred during its noodle-making procedures. It continues to strengthen its B2B sales of IPPUDO branded products both by expanding its product line-up and increasing more sales channels. Its export business underperformed slightly, leading to a slightly lower operating margin for the segment. The Company continues to strengthen its sales both domestically and internationally. Its revenue for the quarter totaled 2,648 million yen (increase of 17.4%) and operating profit 377 million yen (increase of 6.0%).
