About the GRESB

GRESB assesses the sustainability performance of real assets across the globe. The assessment was established in 2009 primarily by major European pension funds which took the lead in Principles for Responsible Investment (PRI). The GRESB Real Estate Assessment is distinguished by its comprehensive evaluation of initiatives for sustainability of property companies, REITs and real estate funds.

Currently, about 150 Investor Members use GRESB data for their investment decision-making and engagement with investees, and several institutions from Japan including Government Pension Investment Fund (GPIF) utilize GRESB Assessment results. In 2024, 2,223 listed or private real estate companies/funds participated in GRESB Real Estate Assessment.

2. MEL's Future Initiatives

MEL is committed to endeavoring to enhance consideration towards ESG to improve the sustainability of society. We recognize that this is an important social responsibility for a listed enterprise to assume, and also believe that it is essential for maximizing our unitholder value.

To put our commitment into practice based on the above recognition MEL strives to invest in environmentally friendly logistics facilities, and will continue to focus on maximizing the energy efficiency of our properties, as well as contribution actions to the local communities.
