Announcement of Receiving Selection to CDP Climate Change “A List”

Japan Real Estate Investment Corporation (“JRE”) hereby announces that it has been selected by CDP for its Climate Change “A List.”

1. About CDP

CDP is a global non-profit charity that runs the world’s environmental disclosure system. Established in 2000, CDP now collaborates with over 700 financial institutions. In 2024, more than 24,800 companies reported their environmental data through CDP, representing over 66% of the world's market capitalization.

2. Assessment Result

An assessment questionnaire spanning topics such as governance, risk management, business strategy, and targets and performance is used to score companies among eight levels: Leadership (A/A-), Management (B/B-), Awareness (C/C-), and Disclosure (D/D-).

In the 2024 assessment, JRE received the highest score of “A” securing a place on its annual “A List.” JRE was recognized for its internationally high standards of commitment and information disclosure on climate change issues.
