## Tsumura Weighs Over 100 Types of Powders with ExaWizards' AI Robot Platform

— Automating The Weighing Process during Quality Testing of Traditional Japanese Medicines —

---

ExaWizards Inc. (Minato-ku, Tokyo; President & CEO: Makoto Haruta; hereinafter "ExaWizards") announces that it is taking on a project on behalf of Tsumura & Co. (Minato-ku, Tokyo, President and CEO: Terukazu Kato, hereinafter "Tsumura") to provide an automated weighing platform for the quality testing of traditional Japanese medicines. The provided AI will learn from sensor data to handle 100 different types of powders, and will eventually progress to full-scale operation.

ExaWizards has been developing technology to automate weighing powders with different properties via robots and AI, a challenging task in the powder manufacturing industry. An automated weighing platform will streamline the process and ensure consistent powder quality.

### ☑ Overview of Tsumura's Implementation

Tsumura's quality testing operations have traditionally found it challenging to streamline quality testing and sample processing of the over 100 types of traditional Japanese medicines that they offer. ExaWizards has introduced a platform that collects powder characteristic information that Tsumura can use to train the AI. The platform will also expand the applicable range of weighing amounts, with development progressing towards full-scale operations.

#### ☑ **About exaBase Robotics**

This development utilizes the technological assets of ExaWizards' robot AI solution "exaBase Robotics," which automates and optimizes processes that use a variety of data inputs.

This exaBase robot-oriented AI uses multimodal data such as object images, field equipment, robot control data, and simulator-generated data to automate and optimize processes. It can be used in many different scenarios, such as substituting simple tasks or replicating the actions of skilled workers.

exaBase is a registered trademark of ExaWizards Inc.

#### **【ExaWizards Corporate profile】**

Company name: ExaWizards Inc

Location: 4-2-8 Shibaura, Minato-ku, Tokyo, 5F

Established: February 2016

Representative: Makoto Haruta, Representative Director & President CEO

Business: Industrial innovation and resolution of social issues via AI service development
