**Daido Metal Co., Ltd. Awarded 'Best Global Supplier Quality Disruption Performance 2024'**  
**by Cummins Inc.**

Daido Metal Mexico S.A de C.V, a manufacturing subsidiary of Daido Metal Co., Ltd was awarded a Best Global Supplier Quality Disruption Performance 2024 by Cummins Inc. (Headquarters: Columbus, Indiana, USA) (Note 1) at the Cummins Awards 2024 held in November 2025.

Trophy and Plate

Daido Metal Mexico received this award in recognition of the excellent products and services provided to Cummins Inc., and Cummins judged that out of a wide ranging amount of Latin American suppliers Daido was able to consistently meet their high quality standards and deliver outstanding quality performance.

This is the second time we have received an award from Cummins, after having received a 'Best of the Best (BOB) – Quality Award' at the Mexico Supplier Awards in 2022.

With our motto 'Quality is Life' we will pursue the maintenance and improvement of our stable supply of high quality products and our quality control system and aim for further development.

(Note 1) About Cummins Inc.

Cummins Inc. is a global technology company designing, manufacturing, distributing and servicing a broad portfolio of reliable, clean power solutions, including diesel, natural gas, hybrid, electric and other alternative solutions.

Established in 1919 and headquartered in Columbus, Indiana (U.S.), Cummins serves customers in more than 190 countries and territories around the world. More information can be found at [cummins.com](http://cummins.com).

[Related Information]

About Daido Metal:

Since our establishment in 1939 we have become a 'comprehensive plain bearing manufacturer' manufacturing and selling bearings for a wide variety of industries including automotive, marine, construction and general industry, and have established sales, production and R&D systems across the globe in the five regions of Japan, North America, Europe, Asia and China. We have a global share of 39% for bearings for automotive engine use and a 75% share of bearings for large-size marine engine use, giving us the top global share of the market. (Share based on 2024 figures/company estimate.)
