Kaisha Shikiho is a corporate information publication that covers all listed companies in Japan. Each stock article includes a headline written by the reporter in charge, based on interviews, proprietary forecasts, and other information, to concisely indicate the company’s earnings trends and business environment.

In the Summer 2026 issue of *Kaisha Shikiho*, the Company was introduced with the headline “Excellent Performance,” indicating the direction of its business performance. In the same issue, only eight companies among all listed companies received this headline, and we understand this as an indication of the strong attention being paid to the Company’s earnings growth and business development.

The Company operates a recruitment business specializing in professional fields, including consulting firms. Since its founding, the Company has built its strengths on deep knowledge of the consulting industry and medium- to long-term career support tailored to each individual candidate.

In recent years, as companies have faced increasingly sophisticated management challenges and as the importance of DX promotion, AI utilization, business transformation, M&A, and human capital management has continued to grow, recruitment needs for professional talent, including talent for consulting firms, have remained firm. Under this market environment, the Company has created truly valuable encounters for both companies and talent by connecting the advanced talent needs of hiring companies with the career development of professional talent.

The fact that the Company was featured with the headline “Excellent Performance” in the Summer 2026 issue of *Kaisha Shikiho* is, in our view, one form of recognition of the Company’s initiatives to

date and its future growth potential.

Going forward, the Company will continue working to hire and develop career advisors, strengthen database marketing, utilize technology including generative AI, and further enhance its expertise in the professional talent domain.

In addition, the Company aims to evolve beyond a conventional recruitment agency into a “lifelong career hub” that professional talent can rely on at every stage of their careers, and will continue contributing to the resolution of social issues through the appropriate placement of human resources.
