Notice of New Product Launch Event
- Advancing System Competitiveness Through In-House PCS Development -

PowerX, Inc. (the "Company") hereby announces that it will hold a new product launch event on Monday, August 3, 2026, to introduce new products and technologies for grid-scale battery energy storage systems.

At the event, the Company will present new products and technologies, including the in-house development of power conversion systems (PCS), a core component of battery energy storage systems, as well as its future product strategy.

Through these initiatives, the Company aims to optimize system specifications, enhance quality and serviceability, and strengthen its procurement and supply capabilities, thereby improving the global competitiveness and medium- to long-term profitability of its battery energy storage systems. Details, including product specifications, planned availability, and strategic positioning, will be presented at the event.

The event will be streamed live on the Company's official YouTube channel. Viewing details are provided below.

Details

1. Event Overview
